

## Windows 10 Compatibility with Sage 50 Range Software

### Sage Accounts

#### Future versions

We'll fully test and support future versions of Sage Accounts on all operating systems supported by Microsoft, including Windows 10.

#### Current versions

**Tip:** If you aren't sure what your version number is, you can check it in your software in Help > About.

### New installations of Sage Accounts

If you're installing Sage Accounts for the first time after installing Windows 10, the following versions are fully tested and supported:

- Sage 50 Accounts v22
- Sage 50 Accounts v21
- Sage 50 Accounts v20
- Sage 50 Accounts v19

### Existing installations of Sage 50 Accounts

If you have Sage 50 Accounts 2013 (v19) or above installed on your computer and you upgrade to Windows 10, your software is still supported. However, if you have any issues you may need to reinstall your software.

Sage 50 Accounts 2012 (v18) and below is not supported on Windows 10.

### Sage Instant Accounts

#### Future versions

We'll fully test and support future versions of Sage Instant Accounts on all operating systems supported by Microsoft, including Windows 10.

#### Current versions

**Tip:** If you aren't sure what your version number is, you can check it in your software in Help > About.

## **New installations of Sage Accounts**

If you're installing Sage Accounts for the first time after installing Windows 10, the following versions are fully tested and supported:

- Sage Instant Accounts v21
- Sage Instant Accounts 2014 (v20)
- Sage Instant Accounts 2013 (v19)

## **Existing installations of Sage Instant Accounts**

If you have Sage Instant Accounts 2013 (v19) or above installed on your computer and you upgrade to Windows 10, your software is still supported. However, if you have any issues you may need to reinstall your software.

Sage Instant Accounts 2012 (v18) and below is not supported on Windows 10.

## **Sage Payroll**

Future versions

We'll fully test and support future versions of Sage Payroll on all operating systems supported by Microsoft, including Windows 10.

Current versions

**Tip:** If you aren't sure what your version number is, you can check it in your software in Help > About.

All versions of Sage Payroll for the 2015/2016 tax year were released before Windows 10. We can support you processing in your software, however, there may be issues that we can't support you with. We therefore may be limited in what we can do.
